PROFILE

“Aspiring Front-End Developer currently enrolled in the ACCP-AI program at Aptech Education, Pakistan. Skilled in **HTML**, **CSS**, **Bootstrap**, and **JavaScript**, with a passion for creating responsive and user-friendly websites. Eager to apply technical knowledge, contribute to real-world projects, and grow in the field of computer science and software development.”

PROJECTS

Mountaineering Website 2025 - MAY

- Designed and developed a multi-section website covering mountaineering history, equipment, guidelines, hazards, and shelters.
- Focused on clean UI, responsive design, and structured content presentation.
- Applied HTML, CSS, and Bootstrap to build a responsive layout that adapts seamlessly across devices.

Travel-Smart 2025 - July

- Developed a responsive travel website featuring destination guides, booking options, and smart travel tips.
- Designed interactive layouts to improve user experience and accessibility.
- Applied HTML, CSS, and JavaScript for functionality and styling.
- Made and Presented at **Context-AZM With Team Tech Pythons**.

Campus-Connect 2024 - 2025

- Built a student-focused platform aimed at improving communication and resource sharing among peers.
- Implemented modern front-end using React with Node.js back-end integration.
- Made and Presented at **TechWiz-6 With Team Error-Squad**.
